

Twist 'n Fill™

The 3M™ Twist 'n Fill™ system features a single compact dispenser that is designed to accurately mix and dispense a wide range of cleaning chemicals. You pick and choose only the chemicals you need for your cleaning tasks - then mix and dispense them all through the same dispenser. Your workers are safer. Mixing is easier, less wasteful and far more flexible. Your cleaning chemicals are consistent. Storage of chemicals is simplified. There's less risk to the environment, and your costs are lower.

Some customers have experienced savings in excess of 25% by switching from bulk to Twist 'n Fill™.

The Twist 'n Fill™ bottle features a tamper resistant cap, a hard bottle, and consistent dilution

Employees who avoid contact with chemicals will have less sick days and will feel better about the work they are doing.

By identifying chemicals by colour, number, and symbols, employees who do not speak English or French can still easily identify the products.

Save Money

- Control your chemical costs
- Reduce wasted chemical
- Cut your labour costs
- Increase productivity
- New tamper resistant cap and harder bottle prevent employees from accessing the chemicals

Increase Employee Safety

- No employee contact with chemicals
- All chemicals meet Canadian regulations
- MSDSs are available for both the concentrate and the ready-to-use in French and English
- Ready-to-use labels are available to identify the chemicals in your trigger spray bottles
- All chemicals are butyl free
- Chemicals are identified with colours, numbers and symbols (bucket or trigger spray bottle fill)
- Ergonomically designed concentrate bottle weighs less than 4 lbs

Decrease labour

- Chemicals are very effective
- 4 chemical formulations are patented
- 17 chemicals to choose from - a chemical for every application
- Cart mountable and wall mountable for added flexibility
- Access water directly from dispenser without disconnecting
- Quick connect to water supply allows fast connection and disconnection

Extras

- Dispenser and chemicals meet all Canadian environmental, safety, health, plumbing, and pest control regulations
- Product Environment Data sheets available for each product
- System is available with storage rack for chemicals
- Product support available daily from 8am - 6pm at 1-800-3MHELPS

Compact Twist 'n Fill Dispenser™ fits in even the smallest closet

One of our patented chemicals is so effective and safe that the airline industry uses it to remove the black carbon stains from the jet engines' fumes.

Mounts on cart for mixing anywhere

The dispenser is compact, easy to use and meets all plumbing regulations

3M™ Twist 'n Fill™ Cleaning Chemical Management System

Cleaner Number	Cleaner Name	Yield per 2 Litre Bottle	Cleaning Tasks Performed
